### Internships

#### Frontend Developer, Physics Wallah | Noida, India

Jun 2024 - Sep 2024

- Gained hands-on experience building dynamic React applications.
- Learned React Toolkit for efficient state management.
- Developed a React-based application as the internship project.

### Skills

**Cloud & DevOps:** AWS (IAM, S3, EC2), Linux, Cloud Architecture

**Programming & Tools:** JavaScript, Git, VS Code

**Frontend Technologies:** HTML, CSS, Tailwind, React.js, Redux Toolkit

**Databases:** MongoDB, MySQL

**Certifications:** Google Cloud (NPTEL), AWS Solution Architect (in progress)

### Projects

#### The Money Tracker Web App |

Jun 2024 - Jul 2024

( React.js, React Router, Redux Toolkit, Tailwind CSS )

- Developed a user-friendly interface for tracking and categorizing daily expenses.
- Utilized Redux Toolkit for efficient state management.
- Integrated an organized expense display showing amount, date, time, and category in the UI.
- Designed an intuitive input flow with a dropdown for category selection.

#### Obys Agency Clone Website |

Apr 2025 - May 2024

( HTML, CSS, JavaScript, GSAP )

- Designed and developed a visually engaging portfolio website using HTML, CSS, and JavaScript.
- Implemented smooth animations and transitions using GSAP for an enhanced user experience.
- Integrated a custom animated loader, magnetic cursor, and staggered text effects to create a dynamic and premium UI.
- Focused on responsiveness and performance, ensuring cross-device compatibility and smooth UX/UI flow.
